

SCRUD REMOVER – PART A

NA 1993

Flammable Cleaning Liquid

DANGER

HEALTH

Not for ingestion. If ingested, see a physician or an emergency health person immediately.

Prolonged contact with skin will cause irritation, drying and potentially a rash.

Strong irritant to eyes

PHYSICAL

Class 3 Flammable. Can be ignited by static electricity. Reacts with oxidants to produce carbon monoxide and carbon dioxide

FIRSTAID

In case of eye contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician. For incidental contact with skin, wash the contacted area. Avoid prolonged contact with skin.

HANDLING & STORAGE

Store (unopened) in cool clean, dry place away from point source heat. Use first-in first-out storage system. Avoid contamination of opened product. Avoid prolonged or repeated skin contact. In case of fire or decomposing conditions (smoking) use self-contained breathing apparatus with full face piece, acid resistant clothing. Deluge with plenty of water to control decomposition. For storage requirements, refer to NFPA 30 on the storage of flammable liquids
